

Globally 1/3 of all food produced is wasted. How do we justify the killing, the deforestation, the blatant disregard we have for Mother Earth?

1 in 5 plants are threatened with extinction. Plant extinction is twice that of mammals, birds and amphibians combined.

500,000 insects are threatened with extinction. What if it were Humans?

Overfishing, Pollution, Coastal Development, Deep Sea Mining and endless etc.'s is having detrimental impact on the marine ecosystems. Imagine. If it was your home. Just Imagine.

Our relationship with nature is broken. The future of 8 billion people is dependent on Mother Earth and her biodiversity.

An Alarming Population drop of 68% of mammals, birds, fish, amphibians and reptiles since 1970.

Biodiversity is fundamental. The evidence unequivocal. Yet, we destroy at an unprecedented rate. It is time to morally coexist, we must.

7.8 billion people, 195 countries,

Let's Take Action & STOP destroying the Natural World!

One Tribe.  
One Family.  
Let's Try!
